

MESSAGE FROM PROBASHI KOLLAN FOUNDATION PKF

About Us

OUR OBJECTIVESThe prevention or relief of poverty or financial hardship anywhere in the world, but particularly in Bangladesh, by providing such persons with goods/services which they could not otherwise afford through lack of means. We also provide or assist in the provision of education, training, healthcare projects, and all the necessary support.

OUR AMBITIONSUltimately, we aim to raise awareness for people that need care and assistance. We aim to campaign, raising awareness for women, orphans, and those with special needs, such as the elderly, or those living with a disability. Support for poor children is paramount, as limited education and child labour limits their prospects. In countries such as Bangladesh, many children are given a job at a young age, which restricts or completely nullifies their education. With more than 100 donors in the UK, and some outside the UK, we are a driving force for positive change.

RECENT PROJECTSOur team is always undertaking new projects, and we have plans for bigger and better things. View an example of our previous projects below:

Winter Blankets - We distributed around 150 winter blankets to poor families in Bangladesh. Flood Project - Bangladesh regularly experiences flooding, as 80% of the country is situated on a floodplain. The monsoon season is often deadly. Crops are destroyed, houses are ruined, and lives are lost. We successfully completed a flood project, in which we distributed food and shelter to those affected by the floods. Educational Support - Equipment and financial support are provided to encourage children to continue with their education. Support for the Elderly - Medical support is provided for those with health problems. Wheelchair Projects - Our team distributes wheelchairs to people throughout Bangladesh.

Why we're raising money

Our StoryThis request is for funding for direct aid to enable 300+ children in rural Bangladesh to address poverty barriers that

keep them from attending primary school (and forcing them into child labour in many circumstances). Over the past 8 years, our grassroots charity has collected individual donations to help alleviate extreme poverty in Moulvibazar, Bangladesh. Household-level assessments and discussions with local schools have led to our project design, which takes a holistic approach to address barriers at both the household and community levels.
